SpaceCRAFT: Installation and Setup Guide

1. Navigate to: https://dashboard.spacecraft-vr.com/

2. Sign in with your username and password on the left
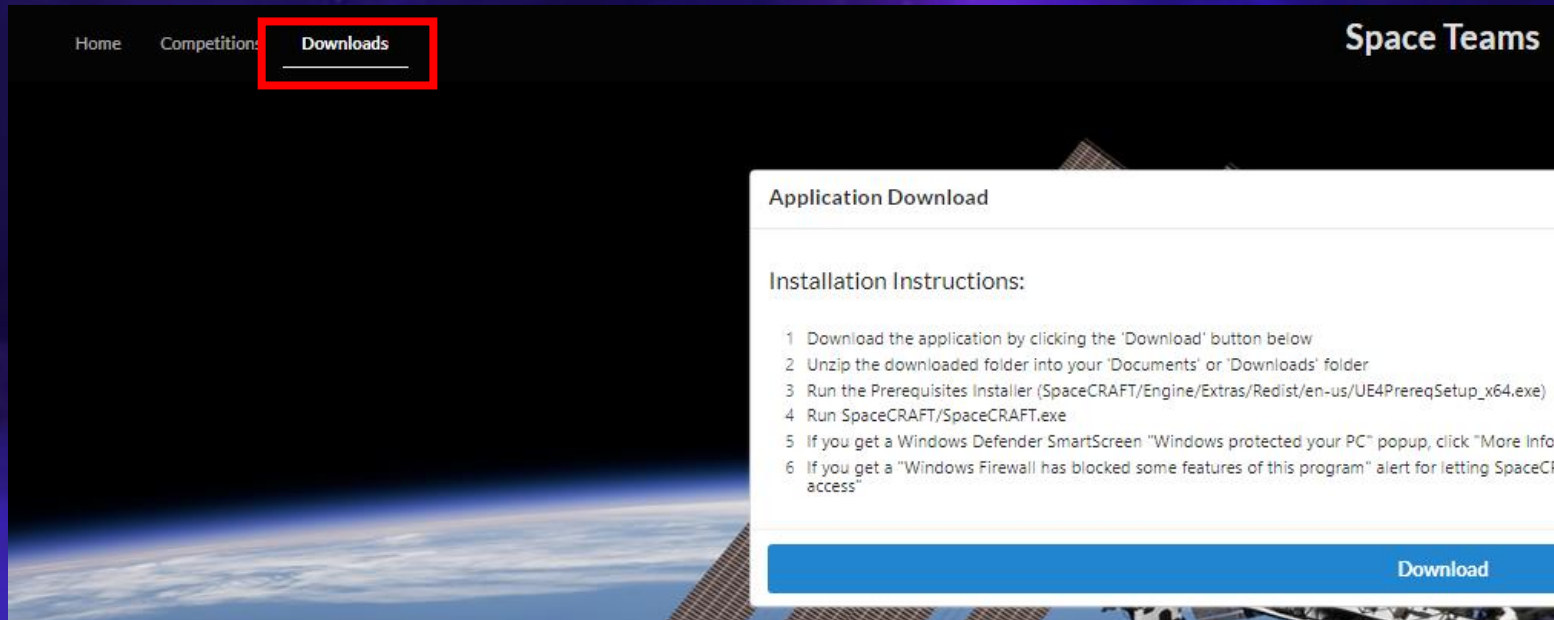

3. Select the "Downloads" tab on the top left

SP∆CE TE∆MS

Application Download

Installation Instructions:

1. Download the application by clicking the 'Download' button below
2. Unzip the downloaded folder into your 'Documents' or 'Downloads' folder
3. Run the Prerequisites Installer (SpaceCRAFT/Engine/Extras/Redist/en-us/UE4PrereqSetup_x64.exe)
4. Run SpaceCRAFT/SpaceCRAFT.exe
5. If you get a Windows Defender SmartScreen "Windows protected your PC" popup, click "More Info", then "Run anyway".
6. If you get a "Windows Firewall has blocked some features of this program" alert for letting SpaceCRAFT's connection to our servers through your firewall, press "Allow access"

Download

4. Click the "Download" button on the bottom of this prompt

- The installation instructions are found on this window as well
- The file is ~4.5GB so the download may take a few minutes

Open when done
Always open files of this type

Pause
Show in folder

Cancel

SC_0.10.13-beta.zip
1.4/4.4 GB, 5 mins left

5. To navigate to the downloaded file, click the arrow next to the download on the bottom of your browser screen

- If you do not see this box, you can follow instructions based on your operating system:
  - Windows

6. Click "Show in folder"

SPACE TEAMS

Name	Date modified	Type	Size
SC_0.10.13-beta	6/26/2021 1:00 PM	WinZip File	4,571,007 KB

Name	Date modified	Type	Size
SpaceCRAFT_0.8.2_ST_0.10.13	6/20/2021 5:26 PM	File folder	

SpaceCRAFT_0.8.2_ST_0.10.13 > SpaceCRAFT > Engine > Extras > Redist > en-us

Name	Date modified	Type
UE4PrereqSetup_x64	7/24/2020 12:33 PM	Application

7. Unzip the downloaded folder.
   - For instructions on how to Unzip files, please refer to:
     - Windows
   - When unzipped, it should look like a normal folder
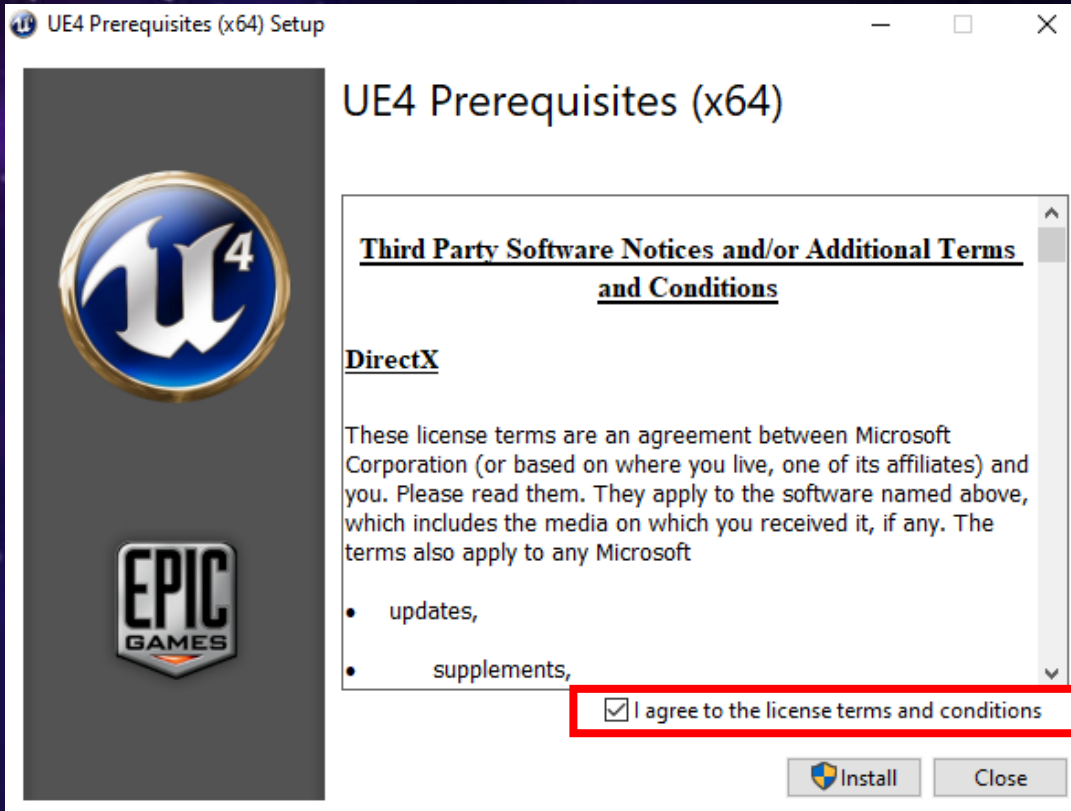

8. Navigate through the folders:
   SpaceCRAFT>Engine>Extras>Redist>en-us

9. Double click or Run the application:
   "UE4PrereqSetup_x64.exe"
   - If you get a Windows Defender SmartScreen "Windows protected your PC" popup, click "More Info", then "Run anyway".

SPACE TEAMS

10. Ensure you check the "Terms and Conditions" box, and then hit "Install"

11. Once the installation is complete, you will receive a popup that states "Setup Successful". Press the "Close" button on this window.
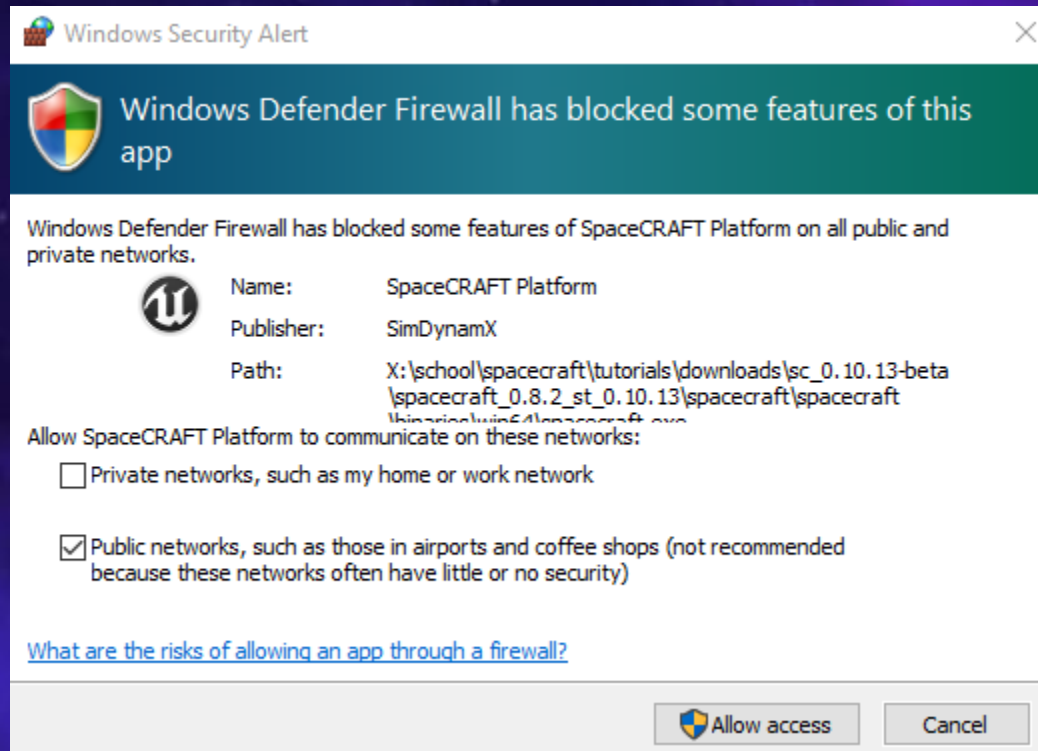

12. Navigate back to the "SpaceCRAFT" folder and look for the "SpaceCRAFT" application
    - This is the launcher that you will use to launch SpaceCRAFT anytime you want to access the program

13. If you get a Windows Defender or similar pop-up, look for an "Allow Access" option

14. Once the application launches, you will be presented with a sign-on screen. This is where you will put in your username and password that you create on the https://dashboard.spacecraft-vr.com/ website

   - Note: You will not be able to login to the application without first creating the account on the website

15. After signing on, click the drop-down menu and select the team you are on

   - If you see "default" or only "Select Team" as an option, please go to the website below and ensure your team is showing up under the "Teams" tab:

   https://dashboard.spacecraft-vr.com

   - To sign up for or to create a team, please refer to the "Team Creation Guide" document
